

Sam Ludwig

Infrastructure | Cloud | Modern Workplace

Melbourne, VIC, 0405 993 245, sam.ludwig@gmail.com, samludwig.au, github.com/Ludwixix

Professional Summary

Infrastructure and technical support engineer with endpoint and hardware diagnostics, structured cabling, Layer 1 fault-finding, physical infrastructure, incident response, and disciplined operational documentation experience.

Profile

This data-centre operations role is an adjacent but credible match. I bring hands-on hardware and endpoint support, physical infrastructure, structured cabling, systematic fault-finding, and reliable operational discipline. The server and networking depth needs confirmation.

Skills

Data centre operations, server support, networking, hardware diagnostics, incident response, operational procedures, technical documentation, customer communication, PowerShell, and ServiceNow

Professional Experience

L2/L3 Technical Support Engineer - Australia Post via Capgemini

February 2026-June 2026

- Managed physical endpoint lifecycle work, hardware diagnostics, inventory, break-fix support, and documented operational processes.

Telecommunications Technician - National Broadband Network

October 2016-November 2017

- Executed fibre and copper structured-cabling deployments, site assessments, Layer 1 diagnostics, equipment installation, and customer communication across Melbourne.

HVAC Service Technician - PolaAir

2017

- Installed, maintained, and repaired commercial HVAC equipment; diagnosed mechanical and electrical faults and managed field-service jobs safely.

Certifications and Education

AZ-104 Azure Administrator Associate, AZ-900 Azure Fundamentals, ITIL 4 Foundation, Certified Scrum Master, Diploma of Information Technology - Coder Academy
