Re: IT Helpdesk Support Officer - APS 4 - Australian Taxation Office

Dear Hiring Manager

I am applying for the IT Helpdesk Support Officer - APS 4 position with Australian Taxation Office. This ATO helpdesk role matches my recent government and enterprise support work, including structured incident handling, endpoint troubleshooting, user communication, asset processes, escalation, and clear operational records.

At Australia Post via Capgemini, I delivered endpoint and infrastructure support, managed hardware and software lifecycle work, resolved complex faults, and built ServiceNow automation that reduced repetitive manual effort. At St John of God Health Care, I delivered a Windows 11 migration across more than 100 clinical endpoints using Autopilot, Intune, application validation, and post-deployment support.

Earlier work with Capgemini for the Department of Education Victoria involved Microsoft 365, Entra ID, hybrid identity, Azure, security-aware change, Tier 3 escalation, PowerShell automation, and documented operational improvement at significant scale. My field background adds practical fault-finding, equipment handling, site assessment, and reliable work ownership.

The areas most relevant to this role are it helpdesk, service desk, windows, incident management. I would bring dependable task ownership, clear communication, and a willingness to learn the way your team works.

I am happy to confirm any licence, qualification, clearance, roster, travel, or role-specific requirement before progressing.

Thank you for considering my application. I would welcome a conversation about how my background could contribute to your team.

Yours sincerely

Sam Ludwig
