Subject

Application - IT Support Engineer - Sam Ludwig

Email body

Hello Hiring Manager

I am writing about the IT Support Engineer position with Metcash. This role matches my practical endpoint and service-operations background across Windows support, Microsoft 365, device provisioning, hardware lifecycle, incident ownership, and clear communication with end users.

My background includes it support, Microsoft 365, windows, endpoint management, enterprise technical support, systematic fault-finding, process-focused documentation, and customer communication.

I would welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
